SUMMARY

MCA graduate with hands-on experience in **Full Stack Web Development**, **MERN Stack development**, **REST API development**, **cloud deployment** and **AI-driven applications**. Skilled in building responsive, database-driven web applications using **React.js**, **JavaScript**, **Node.js**, **Express.js**, **MongoDB**, **HTML** and **CSS**, with additional programming experience in **Python** and **Java**.

Experienced in developing **RESTful APIs**, **JWT authentication**, **role-based access control**, **database integration**, **responsive dashboards** and **production deployments** using **AWS EC2**, **Vercel** and **Nginx**. Built multiple full-stack applications including workforce management, job portal, interview scheduling and complaint management platforms.

Additional exposure to **Generative AI**, **Retrieval-Augmented Generation (RAG)**, **data processing**, **Power BI** and **cloud technologies**, supported by an AI internship and relevant certifications. Strong foundation in **Object-Oriented Programming**, **database design**, **API integration**, **software development** and **data visualisation**, seeking opportunities across software engineering, full-stack development, backend development, Python development, IT support and data/AI roles.

SKILLS

Full Stack & Web Development

Full Stack Development | Web Application Development | MERN Stack Development | Responsive Web Development | Front-End Development | Back-End Development | Database-Driven Applications | Software Development

Front-End Development

React.js | JavaScript | HTML5 | CSS3 | Responsive UI Development | User Interface Development | Dashboard Development | Client-Side Development

Back-End Development

Node.js | Express.js | Python | RESTful API Development | API Integration | Backend Development | Server-Side Development | Authentication | Role-Based Access Control

Database & Data Management

MongoDB | PostgreSQL | SQL | Database Design | Database Integration | Data Management | CRUD Operations | Relational Database Concepts | NoSQL Concepts

Cloud & Deployment

AWS EC2 | Vercel | Nginx | Cloud Deployment | Web Application Deployment | Production Hosting | Server Configuration

Software Engineering

Object-Oriented Programming | Software Development Lifecycle | Application Development | Debugging | Testing | Problem Solving | Code Maintenance | Technical Documentation | Version Control

AI & Data Analytics

Artificial Intelligence | Generative AI | Retrieval-Augmented Generation (RAG) | Data Processing | Data Visualisation | Data Analytics Fundamentals | Power BI | AI Application Development

Professional Skills

Analytical Thinking | Problem Solving | Team Collaboration | Communication | Requirement Understanding | Project Coordination | Adaptability | Technical Learning

TECHNICAL SKILLS

Programming Languages: JavaScript | Python | Java | SQL

Front-End Technologies: React.js | HTML5 | CSS3

Back-End Technologies: Node.js | Express.js | REST APIs

Databases: MongoDB | PostgreSQL | SQL

Authentication & Security: JWT Authentication | Role-Based Access Control (RBAC)

Cloud & Deployment: AWS EC2 | Vercel | Nginx

Development & Version Control: Git | GitHub

Data & Business Intelligence: Power BI | Data Visualisation | Data Processing

AI & Generative AI: RAG | Generative AI | AI Fundamentals

Productivity: Microsoft Office Suite

EXPERIENCE

BEEPEAKS PVT. LTD.

WEBSITE DEVELOPER INTERN

March 2026 - May 2026, Kerala, India

- Developed and maintained web applications and company website functionality using modern web development technologies.
- Built responsive user interfaces with focus on usability, accessibility and consistent presentation across devices.
- Implemented front-end improvements to enhance website usability and user experience.
- Supported website development and maintenance activities across development and production environments.
- Collaborated with the development team to understand requirements and deliver functional web solutions.
- Assisted with troubleshooting and refinement of website functionality, supporting stable and reliable web experiences.

IPSR SOLUTION LTD. |

AI INTERN

June 2025 – July 2025, Kerala, India

- Developed interactive Power BI dashboards to transform data into visual reports and actionable insights.
- Built a Retrieval-Augmented Generation (RAG) chatbot using Python, gaining practical exposure to AI-powered application development.
- Applied data processing and visualisation techniques to prepare information for analytical and AI use cases.
- Worked with artificial intelligence concepts including data preparation, information retrieval and AI-driven application workflows.
- Supported analytical solution development by combining Python, data processing, visualisation and AI concepts.
- Explored practical applications of AI and data analytics within software and business-oriented use cases.

PROJECT

WORKERCRED – FULL STACK WEB APPLICATION

React.js | Node.js | Express.js | MongoDB | AWS EC2 | Vercel

- Developed a full-stack workforce management platform using the MERN stack.
- Built responsive React.js interfaces for application functionality and user interaction.
- Developed RESTful APIs using Node.js and Express.js for backend application services.
- Integrated MongoDB for database storage and application data management.
- Deployed the backend on AWS EC2 and frontend on Vercel, gaining practical cloud deployment experience.
- Implemented end-to-end application workflows connecting front-end interfaces, backend services and database operations.

FULL STACK JOB PORTAL – MERN APPLICATION

React.js | Node.js | Express.js | MongoDB | JWT | AWS EC2 | Nginx | Vercel

- Developed a full-stack job portal using React.js, Node.js, Express.js and MongoDB, covering job posting, applications and experience verification workflows.
- Designed and implemented REST APIs to support communication between front-end components and backend services.
- Implemented JWT-based authentication and role-based dashboards for employers and workers.
- Developed real-time chat functionality to enable direct communication between application users.
- Implemented database integration and application workflows using MongoDB and Express.js.
- Deployed the front end on Vercel and backend on AWS EC2 with Nginx, creating a production-ready deployment architecture.
- Developed responsive application interfaces to support usability across different screen sizes.

INTERVIEW SCHEDULER – MERN APPLICATION

React.js | Node.js | Express.js | MongoDB

- Developed an interview scheduling and management platform using the MERN stack.
- Implemented scheduling workflows covering candidate, interviewer and coordinator management.
- Built scheduling, rescheduling and cancellation functionality with interview status tracking.
- Developed responsive dashboards for managing interview information and scheduling activities.
- Integrated front-end and backend services to support application workflows and data management.
- Applied MongoDB database integration for storing and managing scheduling-related information.

HOSTEL COMPLAINT MANAGEMENT SYSTEM

MERN Stack | Academic Project

- Developed a complaint management system for lodging, tracking and resolving hostel-related issues.
- Implemented role-based authentication to control access to application functionality.
- Built complaint status tracking to monitor issues throughout the resolution process.
- Designed application workflows for submitting, managing and updating complaints.
- Applied full-stack development concepts across front-end, backend and database layers.

STATIC BUSINESS WEBSITE

Web Development | Client Project

- Developed and deployed a responsive business website for a client.
- Implemented responsive web interfaces with emphasis on usability and presentation.
- Managed production hosting and website deployment.
- Supported ongoing website maintenance and production availability.

EDUCATION

MASTER OF COMPUTER APPLICATIONS – MCA

Kristu Jayanti Deemed to be University • Bengaluru, India • 2026

BACHELOR OF COMPUTER APPLICATIONS – BCA

Mahe Co-operative College • Kerala, India • 2024

CERTIFICATIONS

AI for Skilling: Data Science Training Program – NASSCOM Foundation & Capgemini

Introduction to Artificial Intelligence – Infosys Springboard

AWS Cloud Developing Badge – Amazon Web Services

Programming Using Java – Infosys Springboard
